**Change of company name
from Müller-BBM GmbH to Müller-BBM Industry Solutions GmbH
Spin-off of Müller-BBM Building Solutions GmbH**

Dear Sirs,

For 60 years now, Müller-BBM GmbH has been one of the leading engineering companies for consulting services, expert opinions, measurements and planning services in all fields of acoustics, building physics and environmental protection. The business units BUILDINGS | ENVIRONMENT | TECHNOLOGY are an integral part of Müller-BBM GmbH and their services are well known for quality, innovation and reliability. Our main target is to continue and meet these high standards. Thus, we have optimized our corporate structure as follows:

As of 1st September 2022 Müller-BBM GmbH was renamed Müller-BBM Industry Solutions GmbH. Simultaneously, the BUILDINGS business unit was spun off into a new, independent company and subsidiary of Müller-BBM Holding AG, which is renamed Müller-BBM AG.

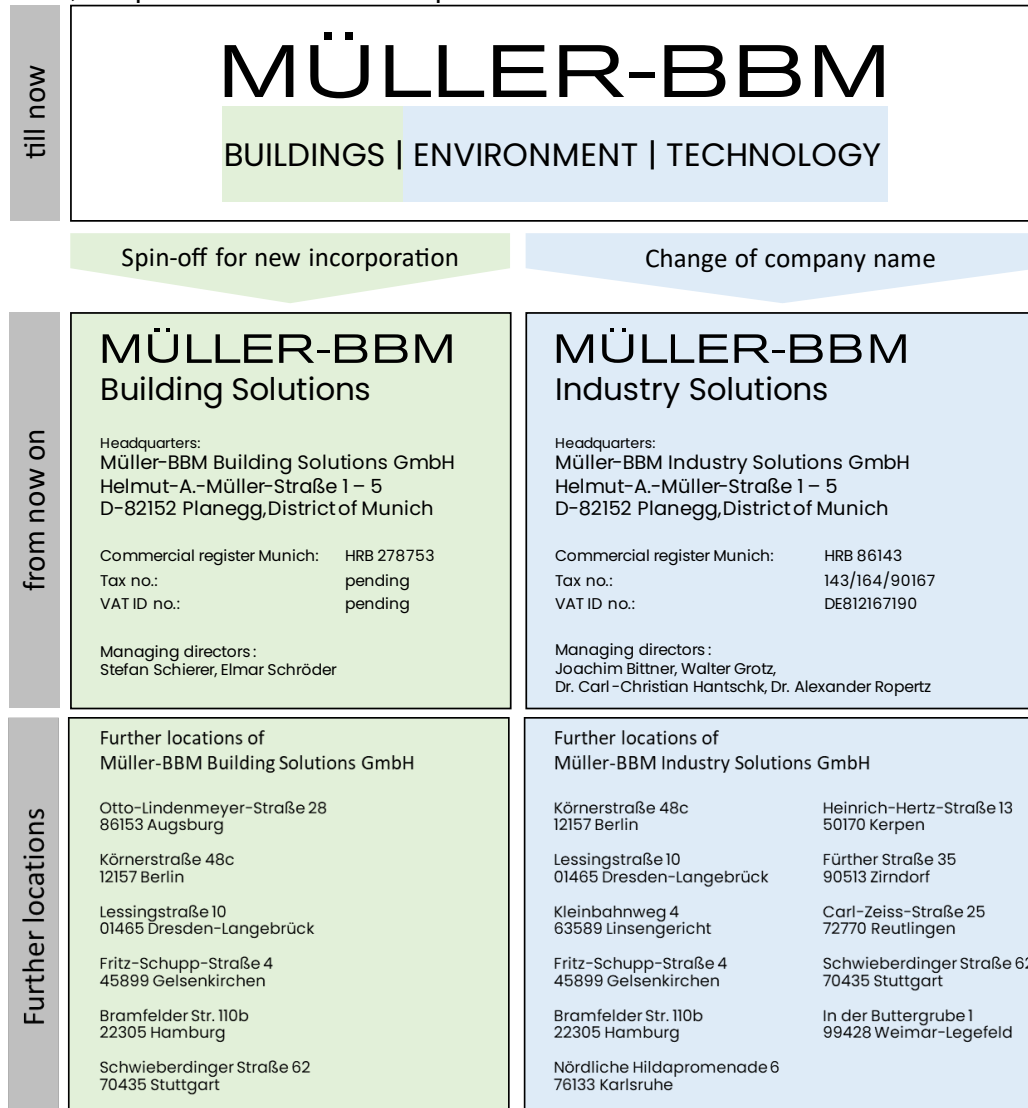

In future, **Müller-BBM Industry Solutions GmbH** will provide the whole range of consulting services and assessments of the former business units Technology and Environment in the fields of immission control and environmental protection, independent measurement and testing activities as well as services concerning acoustics and vibration technology.

The newly founded **Müller-BBM Building Solutions GmbH** will provide consulting and planning services in the fields of building physics and acoustics, sustainability and energy design as well as fire protection and media technology for building construction projects and the real estate sector.
